

# Call for applications

Elections will be held in June for the Social and Economic Committee of the CFDT trade union.

**These elections will be an important moment** for the employees in a context of progressive and permanent transformations of the activities of our company. They'll be renewing for three years the structure of the new CSE (the EC, CHSCT and DP merger).

Far from corporate speeches and other systematic barriers, **the CFDT intends to reconcile its defense of employee interests and pragmatic thinking of the company's strategies.**

In order for important and relevant issues to be debated, it is essential that the elected representatives are united and vigilant with respect to their shared values. This can only be possible with you!

## Become a spokesperson for employees!

The **CFDT** wants to create voters' lists that reflect employees/salaried professionals, with candidates and those spread over all the different activities and sites of the company. Our lists are open to all those who share our values and wish to defend them.

**Become a candidate and offer us the expression of your specificities.**

## You are not alone.

Many apprehensions are linked to the lack of knowledge that the CSE embodies and the roles of the elected officials: "I've got too much work", "I do not want my career to be jeopardized", "I don't want to promote myself", "I wouldn't dare do it or I'm unable to do it" ... But in the vast majority, those who have done it don't regret it, they acquire the know-how... and then the duration of a mandate remains short: "it's a great experience".

By offering the elected representatives training, advice and the availability of experts, the **CFDT guarantees that it will accompany you and represent you at best, independently providing you with all the facts.**

## Boost your career

Fighting for others in addition to speaking only for yourself is to display an ability to take on collective responsibility, to understand the ecosystem of the business and to develop your skills.

Enhance your career, work in a collective manner with other representatives and join the **CFDT!**
